

Building the Future, Code by Code

I'm **Akmal**, a Full Stack Developer

Bridging creativity and technology to build digital experience that stand out

Hire Me

Get to Know Me

I'm a Web Developer with over three years of experience in the tech industry. I specialize in building responsive and dynamic websites that combine functionality with clean design.

I'm passionate about writing efficient, high-quality code and creating great user experiences. My focus is always on performance, usability, and detail.

Beyond coding, I love learning new technologies and improving my craft. I strive to grow as a developer who not only builds websites but also understands real business needs.
